HONOLULE JUNE 19, 1888. The principal receipts from domestic ports during the week were 35,893 bags sugar and 4,185 bags rice.

The shipments, per S. G. Wilder, Alex. McNeill and Wrestler, to San Francisco, were of the aggregate value of \$324,003 30.

The following is Williams, Dimend & Co.'s circular by last mall :

SAN FRANCISCO, May 22, 1888. Sugar-On the 14th instant both refineries made a reduction of 1/20 per lb. on all grades of refined, and both price lists are now the same except for Extra C, which is quoted by the American at %c below the California. Quotations for principal grades are as follows: Cube, 6%c; Dry Granulated, 6%c; Ex. C (American Refinery), 5%c; Extra C (California Refinery), 5%; Golden C, 4%c; other grades at the usual difference. Prices here are now usual difference. Prices here are no below the parity of the New York market.

The Cuba basis remained at 5%c for 96 test until the 9th instant, when it declined to 5 7-16c, but on the 15th instant advanced to 5 17-32c; since the 15th there has been no further change reported.

Eastern and Foreign Markets.-The general condition of the New York market during the past month has continued much the same as noted in our last advices, and the predictions early in the year for much higher prices have not yet been fulfilled, and this in the face of the strong statistical position of supplies all over the world. PER AUSTRALIA, No. 2.

Our last mail advices from New York, of the 16th instant, state that buyers are not disposed to purchase from spot supplies, except what is actually necessary for present wants. Taking into consideration the direct importations, they are carrying fair stocks compared with current requirements, although 25,700 tons less than same time last year.

There has been a good enquiry, however, for cargoes to arrive, but business has been restricted on account of the disparity between buyers and sellers.

The outlet for refined must improve considerably before any important business can be done in spot supplies. The prospect for a better trade next month is good, and induces buyers to make provisions for future wants. The firmness of sellers on the other hand continues undiminished. and they have been unwilling to make concessions to effect sales.

Centrifugals have been sold on the spot at 5 15-32c for 96 test and Muscovadoes at 45 c for 89 test. On cost and freight terms 3%c has been freely bid for cargoes atioat and for shipment, and probably 1-32c more obtainable; but sellers will not shade 3 3-16c, their asking price. According to Willett & Hamlin's statistics of May 10th. the total stocks in the U.S. on that date were 18,910 tons under last year, and receipts for this month were 14,584 tons less than same time last year.

Our latest telegraphic advices, dated New York, May 21st, quote value of Cuba centrifugals, 96 test, at 5%c, market quiet. Beets, 88 test, 12s. 103/d. European and foreign markets dull, and declining esti-mates of last crop nuchanged. Licht cables same date that the entire sowings of beet are 7 per cent increase over last year.

Rice.-Market is over-stocked and mand light. We quote price nominally at 8%c, but there have been sales at 5c.
Rice.—Since our first advices under this date market has gone to pieces, and we quote price at 5%c to 4%c, very weak.

terior. Rep. Kalaukoa presented a petition from Honolulu praying for an extension of Liliha street to Wylie street. Referred to committee on public lands and internal improvements.

REPORTS OF COMMITTEES. Rep. C. Brown, for judiciary committee, reported on the bill to amend section 1253 of the Civil Code, recommending a new section, with which committee recommend

that the bill pass.
(Signed) C. Brown, W. R. Castle, W. A. Kinney, D. H. Hitchcock, John Richardson. The report was laid on the table to be considered with the bill. Rep. Helekunini presented a petition from H. P. Halama, for \$5.50, on account

of double taxes paid. Referred to Finance Committee. Noble Young presented a further report on the military, recommending an amend-ment to regulate the tenure of office of the Colonel and with this that the bill pass.

Laid on the table to be taken up with the Noble Castle presented the report of the commission appointed by the Legislature of 1886 upon the election laws of the Kingdom, with a draft of a new election law, both of which were read by title, 6th inst. report and bill are in pamphlet form, in both languages, making a book of 131

ANSWERS BY MINISTER.

Minister Thurston in answer to the questions of Rep. Hustace, read the following: In answer to the 1st question I would re-ply that the action of the Chief Engineer appears to have been taken under the au-

thority of section 335 of the Civil Code. In reply to the 2nd question, I would say that the statute regulating the fire depart ment does not apparently contemplate any interference or control on the part of the Minister of the Interior in the internal management of the department, such management being left to the members of the department. Having, as I take it, no authority in the premises, any opinion which I might express in the matter would be a personal one only and therefore of no consequence.

Appended to the Minister's answer is a detailed statement by Chief Engineer Wilson relating to the case of foreman J. McCarthy, referred to in Rep

Hustace's questions.

Rep. Hustace moved that this reply be referred to a select committee, with instructions to report upon the facts therein involved, and also whether the efficiency of the Honolulu Fire Department requires any amendment to the statutes, relating to the same, and, if so, what amendments? Rep. C. Brown moved the report be laid

on the table. If any amendments to existing laws are needed, we would undoubt-edly have heard it from the government. It is beneath the dignity of the house to take cognisance of any squabble or diffi-culty arising among members of the fire department. The department is under the charge of the Minister of Interior, and he is fully capable of dealing with the mat-ter at issue. The questions have been an-

swered and that is the end of it.

Rep. Kinney did not agree with the honorable member for Koolau. The fire department is an important division of the public service. He would not like to take part in personal difficulties between its members, but the grievances, if any, of the firemen ought to command attention. A feud had arisen among them and as a re-sult there is danger of companies breaking

up. The latter part of the resolution offered by the member for Honolulu is of value, and he would support it. He thought, however, that the time has come when there ought to be a small paid force. At the same time, no harm can come of reterring the matter to a committee. Rep. Hustace gave reasons for his reso

lution. The laws applying to the fire de-partment are not as they should be. Minister Thurston said that he wished to correct a statement made by the member from Koolauloa, that the Minister of the Interior has authority to control such matter as this; during the past six months he, several times, had occasion to refer to the law so that he was familiar therewith. Under the law, the Minister has no authority or control over the members or officers of the deps.tment. The Fire Department is, by the law, a self-governing body, and not subject to the control of any mem-ber of the Government. I do not think this is as it should be; every department connected with the Government should be subject to some responsible head, and while a large measure of self-control might well be left with the department, there should be at least a right of appeal, and some measure of control of the expendi-tures. A remedy may be found for this by reference to a committee and I there-

fore favor that course. Noble Townsend said there ought always to be some recourse for a minority, especially if imposed upon. Should the chief engineer overstep his authority, there does not appear to be any means of redress.

Rep. C. Brown submitted that there was nothing before the House. The Minister had answered and there was an end of the The President ruled that Rep. Hustace's

motion was in order.

An appeal was made from this ruling, but the President was sustained.

The resolution was adopted and a com mittee appointed, consisting of Reps. Hus-tace and Dowsett, Nobles Foster, Young

and Townsend.

Minister Thurston made the following statement on the petition relative to the letter carrier at Kaanapali.

The petition prays:

1. That the letter carrier from Lahaina to Kaanapali be paid every Friday.

2. The information is conveyed that the

pay is \$1 50 a week which is equivalent to \$6 a month. 3. That the present incumbent of this lucrative office is a policeman, and that petitioners want him removed and another man by the name of "Bill Nakooka" be

No reasons are assigned for any of the pravers. Your committee are of opinion that the management of the detail of the several bureaus should be left to the respective heads thereof. In case such officers shall refuse or fail to remedy any alleged injustice or evil, it will then be in order for this Assembly to enquire into the matter.

Noble Castle moved the report of the committee of one be received and the committee discharged. Carried.

The same Minister read his answer to Noble Widemann's question about water rates, as follows: The Minister of Interior has not sur-

charged the inhabitants of Honolulu with 10 per cent. in addition to the ordinary water rates. What the hon member probably has in view is, that the Legislature of 1886, of which he was a member, passed a law, viz.: Chapter XXVI., laws of 1886, imposing 10 per cent. additional upon all water rates unpaid for over fifteen days

In pection by section.

Rep. Kalaukoa moved it be referred to the Judiciary Committee and, with it, all petitions on the same subject. Carried.

NOTICES OF NEW BILLS. Rep. Kinney gave notice of certain amendments to the Constitution relating to Chinese. Nobie Wight gave notice of a bill amend ing the Act to prevent the use of explo-sive substances in taking fish, passed June

3, 1872. Minister Ashford read, a first time, by title, the bill to provide for the right of challenge to jurors in certain cases.

RESOLUTIONS. Rep. Kamauoha read a resolution in the form of a bill or a bill in the form of a resolution-which it was not explained, but the hon, member's attention being directed to the form of the document, he withdrew

Rep. Paehaole moved to take from the table, to be considered, the bill to amend Article 63 of the Constitution. Lost, ORDER OF THE DAY. Prints and Labels,-Third reading of the

bill to provide for the registration of prints and labels. Pussed. Election Law .- Second reading, by title, of the bili to amend and consolidate the election laws of the Kingdom. Referred to a special committee, consisting of Nobles Castle and Smith, the Attorney-General, Rep. C Brown and the Minister of the In-

Meetings of several committees were ar nounced for the afternoon, and at 11:57 the House adjourned to 10 o'clock Saturday morning.

### Sixteenth Day.

SATURDAY, June 16. The House met at 10 o'clock, the President, Hon. S. G. Wilder, in the chair. Minutes read and confirmed.

PETITIONS. Noble Waterhouse read a petition for more light," signed by 81 tax-payers of Ward 4, Kakaako, praying (1) that an electric light pole be erected at Kakaako, and (2) that a few cartloads of dirt be dumped at the foot of Punchbowl street, so that persons going that way can keep their feet dry. Referred to Minister of Interior.

Rep. Kamauoha presented a petition from Kona, praying (1) that leper hospitals be erected in the different election districts of the Kingdom; (2) that all Government sea-fisheries be free to the public. Referred to the Committee on Miscellaneous Subjects.

Rep. Kalaukoa moved that the Secretary be instructed to pay for newspapers furnished to members at the same price as such papers are supplied to their other patrons.

Noble Smith stated the terms on which newspapers are received. An error had occurred in the price of one of them, but was rectified, so that the hon, member need agonize no further on that matter. The resolution was, by leave, withdrawn

THE MOLOKAI COMMITTEE. Minister Thurston said he had heard outside that the committee appointed to go to Molokai have arranged to go this even ing. If such is their intention, he would suggest that they postpone their visit until Superintendent Myer can be apprised of their coming, so that he may be able to

meet them. Rep. Paehaole said the committee met soon after their appointment and agreed to go this evening at 9 o'clock. He had written to the Assistant Superintendent at the settlement and informed him, though the time was not then fixed, that the committee might possibly be along on Sunday morning. If the House desires it the committee will postpone their visit. Their main object is to examine into the treatment and care of the lepers. If any complaints are heard about Mr. Myer, the committee will not report until Mr. Myer

is heard. Minister Thurston moved that, in the opinion of the House, the committee's visit to Molokai be postponed until Mr. Myer can be notified in advance.

Rep. Kamsuohs favored the motion of the Minister of Interior. According to the programme laid down, the committee intends to go up there and work Sunday. If they have the violation of the Sabbath in view, the motion ought to pass. The motion was adopted.

REPORT OF COMMITTEE. Rep. F. Brown reported five bills printed. NEW BILL.

Rep. Rice read, a first time, by title, a bill: to repeal an act entitled An Act to amend section 54 of the Civil Code, approved on the 18th day of July, 1870, and o exempt passenger steamships from the liability to carry lepers or others suffering from any contagious or infectious disease. ORDER OF THE DAY.

Agents to Take Acknowledgments-Second reading of the bill to amend section 1253 of the Civil Code, relating to agents to take acknowledgments, etc. Minister Thurston moved an amend-

ment which was adopted. Ment which was adopted.

A discussion followed on the matter of keeping the records of agents referred to in the bill, in which Nobles Castle, Smith and Widemann, Ministers Thurston and Austin and Rep. C. Brown took part. Minister Ashford said the amendment rendered a change in the title necessary.

Minister Thurston moved it be referred to the Judiciary Committee to have the

Rep. C. Brown moved it be referred to the Sanitary Committee.

Rep. Kinney moved it be referred to the

Kalawao committee.

Referred to the Judiciary Committee.

Military Bill—Noble Young asked leave to withdraw a report of the Committee on Military Affairs, as some new facts had been brought to their notice. Rep. C. Brown directed attention to a section in the bill providing for the organization of new companies by the military authorities. The section is contrary to the terms of Article 26 of the Constitution which vests the power of organizing mili-tary bodies solely in the Legislature. This

power the Legislature cannot delegate to another. He moved the bill be referred back to the committee.

The report was withdrawn and the bill referred back to the committee.

Street Railway—Second reading of the bill relating to the Honolulu street rail-Referred to the Committee on Oahu Railroad.

The President-I hope they will build the road. Attendance at School—Second reading of the bill: to amend section 1 of chapter LXXIX. of the Penal Code, and to amend

sections 3 and 4 amended August 1, 1878. Referred to the Committee on Education. Circuit Judges to Examine for Commit-ment-Second reading of the bill: to con-fer jurisdiction upon circuit judges to issue warrants and examine for commitment persons accused of crime or misdemeanor. Laid on the table to await the report of the Judiciary Commission. Noble Smith-Life is short; eternity is

that report is going to get here.

The President—It is on the way.

Private Ways and Water Rights—Second reading of the bill: to amend an act entitled "An Act to amend and consolidate the law relative to the commissioners of private ways and water rights, being chapter LXIX of the laws of 1886.

Rep. C. Brown moved the bill be taken

reading of the bill: to provide for the importation and sale of alcohol for medical

mechanical and scientific purposes. Re-ferred to the Committee on Commerce. Security for Costs-Minister Ashford moved to take from the table the bill to amend section 856 of the Civil Code relative to security for costs. The bill had been tabled on Thursday to await the report of the Judiciary Commission, but the matter provided for in the bill will not be covered by the report of the commission.

The Minister then moved the bill be referred to the Judiciary Committee. Rep. C. Brown moved it pass to engross-

Noble Castle moved it be referred to a special committee. The bill was referred to a special committee appointed by the President to con-sist of Nobles Castle, Hitchcock and Smith,

Reps. Kinney and C. Brown.
Proof of Service-Minister Ashford moved the bill: to facilitate the proof of service of processes in civil cases, be taken from the table, for the same reasons as in

the preceding case.

The bill was taken up, and referred to the Judiciary Committee. Several committees were summoned to meet n the afternoon, and, at 11:53, the House adjourned to meet at 10 o'clock Monday morning.

Probate division. Estate Chas. A. Long. F. A. Schaefer, gnardian, in person; A. Rosa for the widow. The Court makes certain rulings touching guardian's accounts for 1884-7 inclusive, from which both parties appeal to the full

FRIDAY, June 15.

BEFORE MR. JUSTICE M'CULLY. Admiralty division. Collector-General of Customs vs. 407 Hats. Claim of forfeiture for false entry. A. P. Peterson, Deputy Attorney-General, for libellant; no one appears to claim goods. Heard, argued and submitted.

BEFORE MR. JUSTICE PRESTON. Law division. In re Peter Olesen Petition for habeas corpus. W.A. Whiting and P. Neumann for petitioner; A.S. Hartwell for the French Chancellor. Besides principals and counsel, the Mar-shal of the Kingdom and many foreign representatives were present. After the reading of petitioner's application and Marshal Soper's return, Mr. Hartwell made an oral statement of facts not stated in said return. The Court held the return should set out everything justifying the arrest of these men. Mr. Hartwell moved to file forthwith an amended return, to which Mr. Neumann objected. The Court ruled that the Marshal's return was insufficient and that the document to him requesting the men's arrest did not warrant the Marshal in its execution. The petitioner, Peter Olesen, and Adolph Peterson and Henry Foster were ordered discharged. The Marshal's return, thus adjudged insufficient, simply alleges that the men had been arrested and detained at the station, on the written request of Chancellor Bellaquet alleging that they had refused duty on board the French bark Cecile.

After the Entertainment.

When Prof. Bishop returned to the Hotel from his successful entertainment at Music Hall Tuesday evening, he meta company of skeptics earnestly discussing what they had just witnessed, some insisting that there was some trickery about it, because it was impossible to honestly do anything of the sort. Among the unbelievers was Rev. Geo. Wallace, who, though he believed in miracles, didn't believe in jugglery. After some conversation, the Professor asked him if he had a pin about him, which was soon forthcoming-only a small pin, less than an inch long. Now, said the Professor, if you will take this pin and bide it wherever you choose, on the hotel premises or anywhere in the city, I will try and find it for you. The Professor then went into a side room with several gentlemen, where he was blindfolded and engaged in conversation, while Mr. Wallace went out to a corner of the hotel premises, buried the pin in a banana leaf, and returned. On heing called out of the room, Prof. Bishop took Mr. Wallace's hand, long enough to ascertain the locality where the pin had been hid, then left the hotel, and walked straight to the banana plant, followed by the party, and drew out the pin which had been buried in the leaf so that no mortal could ever have accidentally found it, and returned it to Mr. Wallace, who was no less aston-ished than were the rest of the comGeneral Advertisements.
